## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6-12, 19 and 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 6 recites the limitation "the scrubber" in lines 7 and 10. There is insufficient antecedent basis for this limitation in the claim.
4. Claim 7 recites the limitation "the scrubber" in line 3. There is insufficient antecedent basis for this limitation in the claim.
5. Claim 8 recites the limitation "the absorption column" in line 2. There is insufficient antecedent basis for this limitation in the claim. Claims 9 and 10 are rejected for depending from a rejected base claim.
6. Claim 11 recites the limitations "the initial removal solution" and "the recycle solution" in lines 1-2. There is insufficient antecedent basis for these limitations in the claim. Claim 19 is rejected for depending from a rejected claim.
7. Claim 12 recites the limitations "the scrubber" and "the feeding aqueous solution and feed gas" in lines 1-3. There is insufficient antecedent basis for these limitations in the claim. Claim 20 is rejected for depending from a rejected claim.

### ***Allowable Subject Matter***

8. Claims 1-5 and 13-18 are allowed.

Art Unit: 1724

9. Claims 6-12, 19 and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

10. The following is an examiner's statement of reasons for allowance: The examiner agrees with applicants' arguments that the Jones document fails to disclose a concentration in the aqueous solution of the fluorinated anionic surfactant removed from the gaseous stream of lower than or equal to 70 ppm. A final rejection is being issued because of the potential complexity for solving of the indefiniteness rejections detailed in paragraphs 2-7 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1724

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
